

**Tip 16 - If your team  
asks, assist them**

- **Have you ever heard of servant leadership?**

- **If your developers asks for help while implementing ideas if you truly can make it happen, do it for them.**

- **Avoid having the misconception that you are doing too much for them already**
- **Collaborate with and help them as much as you can**

- **Leveraging human resources from another team (via your product owner colleague)**
- **Obtaining devices or software with business budget**
- **Giving advice on a technical solution from a user's perspective**

# In Summary

- **If your team asks,  
assist them**
