# Certification Tips

Product Backlog

Key Points To Remember

Product Backlog

- Ordered list of what is needed to improve the product

- Single source of work undertaken by the Scrum Team

- Developers who will be doing the work are responsible for the sizing

- Product Owner may influence the Developers by helping them understand and select trade-offs

- Every product backlog has a product goal which serves as it's commitment

- Product Goal describes a future state of the product which can serve as a target for the Scrum Team to plan against
