# Certification Tips

Sprint Planning

Key Points To Remember

Sprint Planning

- Sprint Planning initiates the Sprint

- Work to be performed for the Sprint is planned

- Resulting plan is created by the collaborative work of the entire Scrum Team

- There are three topics

- Topic One: Why is this Sprint valuable? (the sprint goal)

- Topic Two: What can be Done this Sprint? (the developers select what can be done)

- Topic Three: How will the chosen work get done? (the developers break the work into tasks)

- Sprint Planning is timeboxed to a maximum of eight hours for a one-month Sprint

- For shorter Sprints, the event is usually shorter
