# Certification Tips

## Sprint

### Key Points To Remember

# Sprint

- Sprints are the heartbeat of Scrum, where ideas are turned into value

- They are fixed length events of one month or less to create consistency

- A new Sprint starts immediately after the conclusion of the previous Sprint

- Sprints enable predictability by ensuring inspection and adaptation of progress toward a Product Goal at least every calendar month

- A Sprint could be cancelled if the Sprint Goal becomes obsolete

- Only the Product Owner has the authority to cancel the Sprint
